EVERVEDA

ABOUT

Everveda helps restore and rejuvenate the lives of those who seek better health. They provide both services and products.

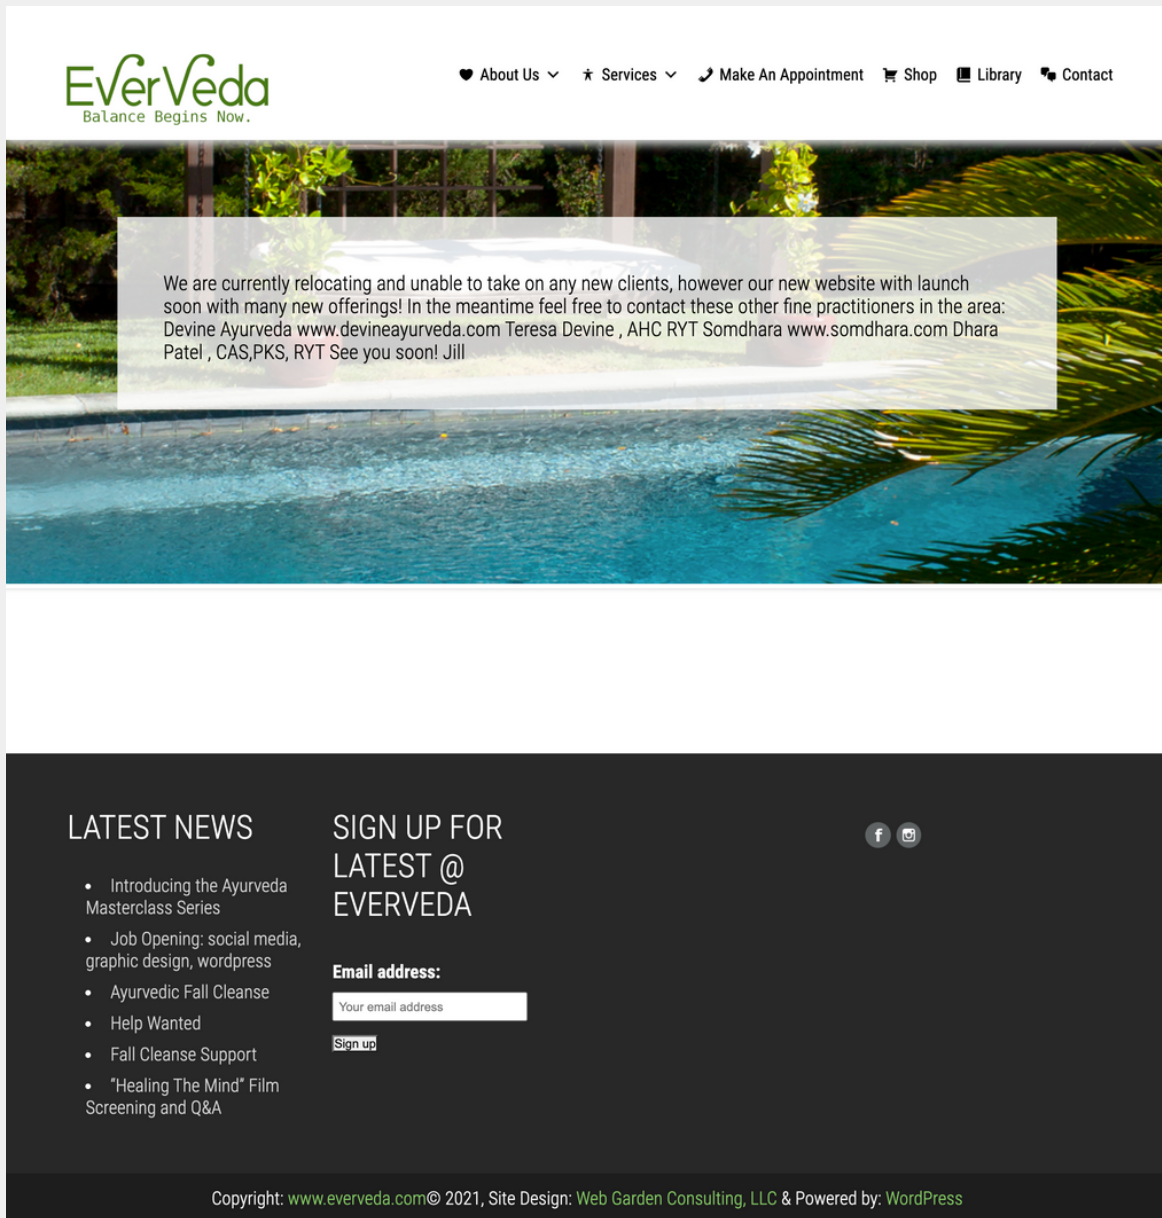

PROBLEM

Their website was built on WordPress a long time ago and was not functional and reflected their beautiful property and in-person experience. Their service booking integration only worked sometimes. They also found it difficult to maintain a WordPress website due to a lack of technical expertise.

SOLUTION

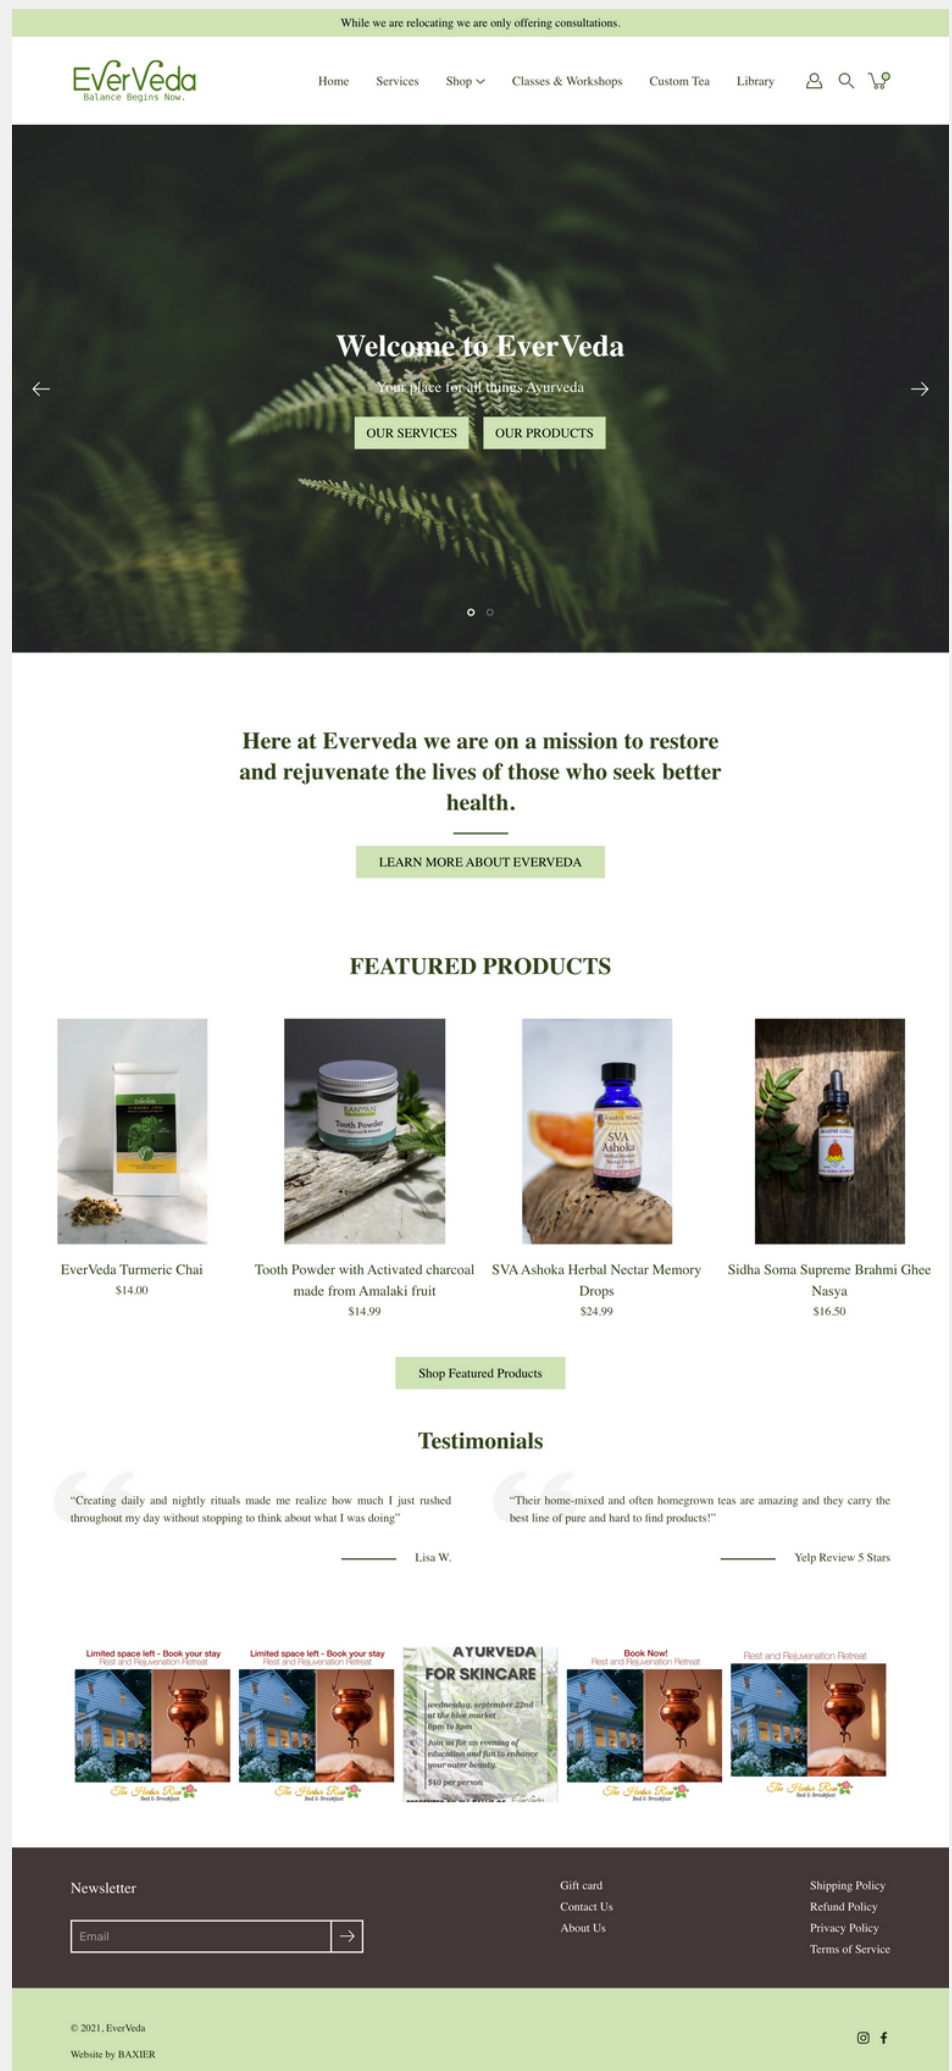

We refreshed their existing branding and built a brand new website on Shopify. Shopify is an easier to use platform and removes the maintenance need. The new website reflects is in sync with the center's in-person experience. The new website will be launching this week.

We integrated the booking app seamlessly and customized it so it is aligned with the branding.

EverVeda Testimonials:

This was my first cleanse and not knowing exactly what to expect I approached it with a somewhat skeptical open mind. I must say I was very pleasantly surprised. After getting past the initial shock of not having my morning coffee I began to embrace my new routine. I felt the results almost immediately feeling lighter, more clear-headed and sleeping a bit better. Creating daily and nightly rituals made me realize how much I just rushed throughout my day without stopping to think about what I was doing. Jill was wonderfully supportive throughout the process. I truly felt transformed by the end of the cleanse and I'm looking forward to my next one!

-Lisa W.

Since working with Jill Talke, my body is so much happier. Between the supplements she recommends, the changes in what and how I eat, and simple daily rituals, I have found my energy levels stabilizing, my digestion improving, herbed oil I am getting the best sleep of my life. Jill is incredibly knowledgeable, you can trust her intuitive sense and her total commitment to the practice of ayurveda, plus she has the most calming demeanor that induces relaxation the moment you sit down in her office. Not to mention that she also gives the most incredible abhyanga treatments. I highly recommend Jill for not only treating ailments and injuries, but also to maintain balance in daily living. She is a gift!

JC WELLNESS

ABOUT

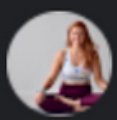

JC Wellness helps women entrepreneurs prioritize their health so that they can create the business and life they want. We provide high-level health coaching to ensure that busy women's brains and bodies are functioning at full capacity so that they can kick-ass in their business.

PROBLEM

Jordan had pivoted in her business and at a point where she needed to invest in professional branding

SOLUTION

We understood what her business is. Its mission, vision, and goals in detail, created a strategy and developed a branding that reflects it. Her website is launching in December but below you will see the branding we did for her.

NEW

I loved working with Baxier to create new branding for my business! Mansi really took the time to understand me and my business. She was thoughtful and thorough resulting in branding that feels so aligned with my company's values and vision. I was so happy with my branding we are continuing to work together to build my new website. I would recommend Baxier to anyone looking for branding or website design!

JC WELLNESS

OPEN EARS

ABOUT

Open Ears is a non for profit organization that provides adventurous programming focusing on new music and sound.

PROBLEM

They have been creating unique annual concert experiences for over a decade. In 2020, they had to cancel their annual concert for the first time. Their existing DIYd Squarespace website wasn't capable of one hosting an online concert and two providing the level of experience that they provided offline.

SOLUTION

We carefully strategized to move their website to WordPress - a platform that had the technical capability they needed. We not only redesigned the website we also added functionality to run the live concert on the website. In June of 2021 OE ran their first-ever successful online festival where the audience was able to purchase the ticket online and watch the live show. The concert functionality on the website was turned off post this year's festival.

Positive: Professionalism, Quality, Responsiveness, Value

Mansi was professional, friendly and a pleasure to work with. I had complete confidence that the website redesign was in good hands at all times. The final results met all of my hopes and expectations for my organization, and has generated many positive comments from Artists, patrons, and sponsors alike. I look forward to a future opportunity to work with Mansi and would highly recommend her expertise for those seeking assistance for their website needs.
